## Foreword

This standard replaces GB/T 9125 —2003 *Fasteners for Pipe Flange Joints*, compared with original standard, the main revisions are as follows:

- Add dimension specification of commodity fasteners and length specification of special fasteners according to EN1515-1:1999 *Flanges and Their Joints-Bolting-Part 1: Selection of Bolting* (English version);
- Add common materials of fasteners;
- Add code of special fasteners;
- Set surface treatment, test method, acceptance inspection, etc. in a separate chapter, and adjust some contents;
- Modify chapters of designation, mark and packaging and relevant content;
- Modify some contents about calculation of bolt length in Annex A;
- Modify and improve Annex B according to EN1515-1:1999.

In this standard Annex A and Annex B are informative Annexes.

This standard was proposed by China Machinery Industry Federation.

The Standard is under the jurisdiction of the National Piping Accessories Standardization Technical Committee.

This standard is drafted by: Zhejiang Gaoqiangdu Fasteners Co., Ltd., China Productivity Center for Machinery (CPCFM), CNPC Huadong Engineering Corporation, Zhoushan Zhengyuan Standard Parts Co., Ltd.

Main drafters of the Standard : Li Junying, Ge Haiquan, Ding Baoping, Liu Jian, Liu Hongfu, Lin Zhongyue, Feng Feng and Ge Shaohui.

The issuances of previous versions of the standard replaced by this standard are as follows:

- GB/T 9125—2003.

# Fasteners for pipe flange joints

## 1 Scope

This standard stipulates the type and dimension, material and mechanical property and other technical requirements of fasteners for pipe flange joints.

This standard is applicable to fasteners for pipe flange joints of steel flanges, cast iron flanges, copper alloy, composite flanges and other materials.

The fasteners in this standard include hexagon bolts, double end studs, stud bolts, hexagon nuts and large hexagon nuts.

## 2 Normative References

The articles contained in the following documents have become this standard when they are quoted herein. For the dated documents so quoted, all the modifications (excluding corrections) or revisions made thereafter shall not be applicable to this Standard. For the undated documents so quoted, the latest editions shall be applicable to this Standard.
