## **Notice on Issuing the National Standard of the Code for Acceptance of Construction Quality of Water Supply Drainage and Heating Works**

J.B. [2002] NO. 62 Document

Pursuant to the Notice on the Printing and Distribution of Modification Plans of National Standards for Engineering Construction in 1995~1996 (J.B. [1997] NO.4), this Code for Acceptance of Construction Quality of Water Supply Drainage and Heating Works is rectified jointly by the Construction Department of Liaoning Province and other relevant departments. Our ministry has arranged for the examination by related departments of the Code and hereby approved it as a national standard with the serial number of GB 50242-2002 and to be effective on April 1 2002. The 3.3.2, 3.3.16, 4.1.2, 4.2.3, 4.3.1, 5.2.1, 8.2.1, 8.3.1, 8.5.1, 8.5.2, 8.6.1, 8.6.3, 9.2.7, 10.2.1, 11.3.3, 13.2.6, 13.4.1, 13.4.4, 13.5.3 and 13.6.1 articles hereof are compulsory and must be strictly and exactly performed. Upon the execution of this Code, the original Code for Quality Acceptance of Heating and Sanitary Engineering GBJ242-82 and any related parts in Code for Quality Inspection and Acceptance of Building Heating and Sanitary and Gas Engineering GBJ302-88 with respect of "heating and sanitary engineering" shall be abolished and terminated immediately.

As regards this Code, the Ministry of Construction of the P.R.C is responsible for its administration and interpretation with respect to the aforementioned compulsory articles, the Rural and Urban Construction Commission of Shenyang undertakes the interpretation of and in connection with detailed technical contents, and the standard quota institute under the Ministry of Construction arranges for the publishing and distribution from time to time by the China Building Materials Industry Printing House.

Ministry of Construction of the P.R.C.  
March 15 2002

## Table of Contents

<b>1</b>	<b>General Rules .....</b>	<b>1</b>
<b>2</b>	<b>Definition of Terms .....</b>	<b>2</b>
<b>3</b>	<b>Basic Regulations .....</b>	<b>5</b>
3.1	Quality Management.....	5
3.2	Management of Equipment and Material .....	5
3.3	Quality Control of Construction Process .....	6
<b>4</b>	<b>Installation of Indoor Water Supply System .....</b>	<b>10</b>
4.1	Basic Regulations.....	10
4.2	Installation of Water Supply Pipes and Fittings.....	11
4.3	Installation of Indoor Fire Plug System .....	13
4.4	Installation of Water Supply Equipment .....	13
<b>5</b>	<b>The Installation of Indoor Drainage System .....</b>	<b>16</b>
5.1	Basic Regulations.....	16
5.2	The Installation of Drainage System and Its Accessories .....	16
5.3	The Installation of Rain Drainage System and Its Accessories .....	20
<b>6</b>	<b>The Installation of Indoor Hot Water Supply System .....</b>	<b>22</b>
6.1	Basic Regulations.....	22
6.2	The Installation of Plumbing and Its Accessories .....	22
6.3	The Installation of Accessory Parts.....	23
<b>7</b>	<b>The Installation of the Toilet Equipments .....</b>	<b>26</b>
7.1	The Basic Regulations .....	26
7.2	The Installation of the Toilet Equipments.....	30
7.3	The Installation of the Water-Supplying Fittings of the Toilet Equipments .....	32
7.4	The Installation of the Drainpipes.....	32
<b>8.</b>	<b>The Installation of the Inside Heating System .....</b>	<b>36</b>
8.1	The Basic Regulations .....	36
8.2	The Installation of the Pipes and Their Fittings.....	36
8.3	Installation of the Assistant Equipments and the Radiators.....	39
8.4	The Installation of the Radiating Board.....	41
8.5	The Installation of the Low-Temperature Hot-Water Radiating Heating System under the Ground .....	41
8.6	The Water Pressure Experiments and the Debugging of the System.....	42

<b>9.Installing Outdoors Water-Supplying Pipes.....</b>	<b>44</b>
9.1 The Basic Regulations .....	44
9.2 Installing water-supplying pipes .....	44
9.3 The Installation of the Jointing Machine of the Fire Water Pumps and the Outdoors Fire Hydrant .....	48
9.4 The Channels of the Pipes and the Inter Space of the Wells.....	49
<b>10 The Installation of the Outdoors Net of the Drainpipes .....</b>	<b>51</b>
10.1 The Basic Regulations .....	51
10.2 The Installation of the Drainpipes.....	51
10.3 The Channels of the Drainpipes and the Wells .....	53
<b>11 The Installation of the Outdoors Net of Heating Pipes.....</b>	<b>54</b>
11.1 The Basic Regulations.....	54
11.2 The Installation of the Pipes and Their Fittings .....	54
11.3 The Water Pressure Experiment and Debugging of the System .....	57
<b>12 The Installation of the Water System in the Buildings and the Swimming Pool System .....</b>	<b>58</b>
12.1 The Basic Regulations .....	58
12.2 The Installation of the Pipes of the freshwater Systems in the Building and Their Supporting Equipments.....	58
12.3 The Installation of the Swimming Pool Water Systems.....	59
<b>13 The Installation of the Heating Boiler and Its Supporting Equipments.....</b>	<b>60</b>
13.1 The Basic Regulations .....	60
13.2 The Installation of the Boilers.....	60
13.3 The Installation of the Supporting Equipments and the Pipes.....	66
13.4 The Installation of Security Fittings .....	70
13.5 Baker, Boiler and the Experimental Operation.....	71
13.6 The Installation of the Warm-Exchanging Station.....	72
<b>14 The Examination of the Quality of the Sections (or Subsections) .....</b>	<b>74</b>
<b>Appendix A .....</b>	<b>76</b>
<b>Appendix B .....</b>	<b>77</b>
<b>Appendix C.....</b>	<b>79</b>
<b>Appendix D.....</b>	<b>80</b>

<b>Appendix E .....</b>	<b>81</b>
-------------------------	-----------

# **1 General Rules**

**1.0.1** For the purpose of enhancing the management of engineering quality and unifying acceptance rules on construction quality of building's water supply and drainage and heating works so as to ensure engineering quality, this Code is hereby made as follows.

**1.0.2** This Code shall be applicable to the quality acceptance of water supply and drainage and heating works of buildings.

**1.0.3** Quality acceptance requirements adopted in all and any engineering technical documents and contracting documents for building's water supply and drainage and heating works shall at least attain the stipulations set forth hereof.

**1.0.4** This Code shall be used in cooperation with the *Unified Standard for Quality Acceptance of Building Engineering* GB 50300 that is currently in force and effective.

**1.0.5** Quality acceptance of building's water supply and drainage and heating works shall, in addition to this Code, comply with other related national codes and standards that are currently in force and effective.
