Design Code of Air—Water Washing for Filter

滤池气水冲洗设计规程

Letter on Approval of *Design Code of Air—Water Washing for Filter*

(93) JBX Zi No. 28

Urban Water Supply and Drainage committee:

The *Design Code of Air-Water Washing for Filter* (**No.: CECS50:93**) is hereby approved to be published and distributed by the office of the China Engineering Construction Standardization Association for the use of the relevant engineering construction units as well as the international communication.

China Engineering Construction Standardization Association
September 11, 1993

Contents

1. General Provisions	1
2. Terms	2
3. Air-Water Washing Mode	3
4. Air and Water Distribution System	4
4.1 Structures of air and water distribution system	4
4.2 Design calculation of air and water distribution system	5
5. Washing Water Supply	9
6. Washing Water Supply	11
7. Exclusion of Wash Water	13

1. General Provisions

1.0.1 This Code is formulated in order to make the design of the air-water washing pattern adopted by the filter advanced in technology, reasonable in economy and safe and reliable.

1.0.2 The Code applies to the newly-built, extended and rebuilt filter which adopts the design of the air-water washing.

1.0.3 Air-water washing design for filter, in addition to implementing this Code, shall also comply with the current national standard *Code for Design of Outdoor Water Supply Engineering* and other relevant specifications.
