## **Foreword**

This standard is prepared according to the rules specified in GB/T 1.1-2009.

This standard is under the jurisdiction of National Technical Committee (SAC/TC 114) on Road Vehicles of Standardization Administration of China.

The responsible drafting organizations are China Automotive Technology & Research Center and Jilin University.

The chief drafting staff of this standard includes Chu Jiangwei, Liu Xianghai, Guo Miao and Zhang Chunrong.

# **Automobile recovery-Terminology**

## **1 Scope**

This Standard specifies the terminology and definitions related to the recycling of motor vehicles and products of components.

This Standard applies to all types of motor vehicles used within China.

## **2 Terminology and definitions**

### **2.1 Basic terminology**

#### **2.1.1**

##### **End-of-life vehicles (ELVs)**

It refers to the motor vehicles that have met the end-of-life conditions according to the national mandatory end-of-life requirements for the motor vehicle or the deliberately disaffirmed motor vehicle by the vehicle owners.

#### **2.1.2**

##### **Dismantling information**

It refers to the guiding information provided by the producer to correctly and environmentally dispose the end-of-life vehicles.

#### **2.1.3**

##### **Removal**

It refers to the operations of separating and removing the components from the motor vehicle, assembly or components and other assemblies.

#### **2.1.4**

##### **Disassembly/dismantling**

It refers to the operations of dismantling the motor vehicle, assembly or components and other assemblies.

#### **2.1.5**

##### **Reuse**

It refers to the direct use of the components of the end-of-life vehicles (ELVs) directed at its design purpose.
